

## NHS Cancer Screening Discussion Group

Based on NHS data, the percentage of Chinese who participate in the National Cancer Screening Programme is lower than the national average.

BHMWA and the Chinese Welfare Trust will host a discussion group on how to promote NHS health screening services to Chinese communities. During the session, Health Ambassadors will explain the screening service and show promotional materials (including leaflets and videos) to participants for them to evaluate and suggest improvements.

Please join us in this meaningful discussion and contribute to the welfare of the Chinese community in London.
